## JAHEZIYA AT A GLANCE TODAY

Tawazun Safety Security and Disaster Management City, trading as Jaheziya, is a Tawazun initiative to deliver locally and internationally approved training to meet the training needs of various industry sectors and the military.

Jaheziya aims to establish itself as a regional hub for training in the fields of safety and emergency response and currently offers quality assured professional training programs in state of the art facilities at its Centre of Excellence located ideally at ICAD 3 in Mussafah. Today Jaheziya is committed to leading the way in developing or enhancing the skills and sustaining the competencies of emergency responders and also in improving safety attitudes and implanting a safety culture in the workforce of the UAE and the region.

At Jaheziya, this mission is achieved through delivering a comprehensive range of professional courses in the fields of onshore and offshore rescue and firefighting, safety and emergency response, to national and international standards such as NFPA, IMO, OPITO, First Aid International, NTA and the UAE Civil Defense. Highly experienced local and international instructional staff of Jaheziya together with a network of international training partners design and develop curriculum that is tailored to meet the client's specific needs and deliver them employing innovative techniques and skills solutions.

Today, Jaheziya (which in fact means readiness) is ready to take on a wide range of challenges that would be encountered in satisfying the training needs of its stakeholders and clients.
